

CLOUD COLLECTED®

## RFID Vehicle Access

### Product Overview

#### What is Cloud Collected?

Cloud Collected turnkey solutions harness Wireless, RFID, Sensor, Biometric and other technologies to provide Dynamic Asset Management (DAM) Real Time monitoring, tracking, and managing for single or multiple sites and locations.

Our Turnkey Solutions as a Service (TSaaS) are fitted to your needs, easy to implement, and capable of expansion at any time.

#### Our Products

##### Tracking

- RFID Vehicle Monitoring
- Dealership Vehicle Availability
- Delivery Truck Availability
- Mobile Asset Management
- EMC/EMT Vehicle Assets and Personnel
- Fire Apparatus Assets and Personnel
- Police Vehicle Assets and Personnel
- Utility Assets and Personnel
- Other First Responders
- Other Mobile Assets
- Personnel Management
- Tour Guide Monitoring
- School Bus Monitoring
- Office and Warehouse Personnel Tracking
- Animal Tracking
- Remote Site Asset Management
- Tag Readers and Testers

##### Access Control

- RFID Vehicle Access
- Gated Communities
- High Security Facilities
- Parking Garages
- Residential Gated Driveway
- Gate Access

##### Dynamic Assets

- Cloud Weapons Express
- Real Time RFID Weapons Issue
- Manual RFID Weapons Issue
- RFID Asset Tracking
- Barcode Asset Tracking

##### Temperature Monitoring

- Cloud Chain

# RFID Vehicle Access

provides vehicles seamless access to any gated property via RFID tags

Do you manage a gated facility or property where the same vehicles frequent, and are looking to provide a seamless and secure experience?

Our RFID Vehicle Access solutions utilizes RFID tags to determine a when a vehicle is accessing a location. With our RFID solution, our software will recognize when a vehicle is within range of the gate, and the gate will open - providing your users seamless access and providing you accurate vehicle access data.

## All-In-One Solution

Don't create inconvenience for yourself when our turnkey RFID solution can provide seamless access to your gated facility. Our RFID Vehicle Access Management solution uses individual RFID tags on a vehicle to observe its location in relationship to the security gate and provide access when desired.

With our total solution, you can be up and running with minimal effort. First, we determine your needs:

- Do you want your tags to attach to the vehicle windshield or hang on the rearview mirror?
- How many gate locations do you want to enable RFID access for?
- How many lanes for each gate?
- Do you already have gate hardware (controllers) that we need to integrate with, or do you need to purchase them from us?

We will then configure and ship you the required hardware. You follow our directions to install the system at your location(s).

Next configure the system and then provide your residents with a secure and authorized RFID tag. When their vehicle enters a specified distance of the gate, the gate will open automatically. Site administrators use our software to monitor tag activity and grant or revoke gate access to specific tags.

## Easy Setup & Installation

1

### We Customize Your Solution

Once we determine your requirements, we configure a package to fit into your location.

2

### You Receive the Package

The package will include everything you need to get up and running - from the RFID hardware and RFID tags to gate hardware and software needed.

3

### Connect Components

Components will be installation ready - all you will need to do is attach them to your desired location.

4

### Customize Settings

Using our web based cloud software, you manage authorized tags and customize any settings to fit your location(s).

5

### Place RFID Tag on Vehicle

Depending on the tag-type, either hang the tag on the vehicle's rearview mirror or attach it on the inside of the vehicle's windshield.

## Complete Package

Our real-time Vehicle Access Management solution is a turnkey solution - we provide everything needed to get up and running. Our solution can be configured to include:

- **RFID Hardware** including vehicle RFID tags, antennas and readers
- **Required Gate Hardware** or gate controller integration components for your specific needs (*optional*)
- **All Software**
  - Local Gate Access Controller Software (Collection Agents)
  - Remote Cloud Software Service
- **Hardware Support Services** for multiple year support (*optional*)

**Cloud Collected**  
560 Peoples Plaza #312  
Newark, DE 19702
